Pan Delegate

Guest Speaker

Derek Harris / SGA- Implementing Medical Amnesty at UCF. Medical Amnesty is a policy that will protect students from being penalized by the university or having their academic career jeopardized. There is concern within the administration on covering Greeks in this system. Instead of being punished by the university, a more rehabilitative approach would be taken. The goal ultimately is to keep students in school. All incidents would still be reported back to the university. SGA encourages Greeks to make each other aware of the policy and gather support for change. Looking to get discussion started.

Logan Berkowitz/Brandie Hollinger / SGA- updates from Greek Park II. Still in talks with individual house corporations about getting empty houses filled. UCF has control over the Pike house. The house will be demolished, and have two houses rebuilt on there. Permission has been granted to have the Sig Ep and SAE houses appraised so they can be bought. The university will own the houses. BOT wants that land to be used for Greeks, contrary to what everyone else thought. SGA will continue to keep the Greek community updated.
