Greg Mason/Erica Halback- sga\_greek@mail.ucf.edu. Looking to invest in Greek Leadership Greek Park II- Article came out in Central Florida Future. Don't have specific dates. Pike House- trying to figure out whether or not to renoate the house, and how much its going to cost. Estimate: \$1.5 million. More vandalism caused water damage after the movie was filmed. SAE/SigEp- Houses are still in sublease agreements, university does not own them. The document says that if the house closes, the university has the first option to terminate the leases and purchase the facilities. They will probably be purchased and brought up to code to rent out to other organizations. Dr. Ehasz and Christi Hartzler have info on the costs, it needs to go to UCF trustees and the Florida Board of Governors. Hoping to complete renovations by next year. Greek Park II will be designed in 2008-2009, build process 2009-2010, to be occupied in 2010. Criteria for selection of who occupies the houses- history, grades, conduct. A committee consisting of students, administrators, and faculty will decide who gets housing. Greek Park II will be different from current setup, in that they will be enclosed in about 7 acres total, 12-14 3-story structures. The idea is to be conservative on land, with a model similar to Baldwin Park. Houses would be of different size based on chapter size.
